“ Brian was the Instructor for my lab section of Engineering Graphics at UMKC. He was always friendly and ready to help during and outside of class hours. While I only knew him as an instructor, I know that he must have left a legacy in the hearts of many.

“ Brian was one of the sweetest persons I've met. We became such good friend at Longview community college when we both were starting engineering school. I remember him always willing to help me and support me. He would go out of his way to help me and help other students. He was such a caring and smart person. I will always miss our talks about our future goals buddy. Rest In Peace my friend. I have your family in my prayers. We will all miss you.
